ORDER

This appeal, received on August 24, 2015, concerns the Sky People Higher Education Program of the Northern Arapaho Indian Tribe (contractor) and the Department of the Interior (agency). The contractor disputes a contracting officer's decision asserting a claim for the repayment of money for fiscal year 2007. The parties resolved this dispute without formal proceedings. In accordance with the request in a joint stipulation of the parties that states that, based upon additional information, the contracting officer has issued a revised "findings and determination" letter specifying that the contractor is not liable for any repayment of funds for the fiscal year in question, the Board **DISMISSES** this appeal.
